SUMMARY

As a final-year student at Epitech, I'm looking for a Frontend/ Full Stack Developer position. I'm passionate about web development and love tools such as **React**, **NextJs** and **Tailwind**.

EXPERIENCES

Full Stack Developer Intern, Flutter, and Supabase

Piwio

📅 01/2022 - 05/2023 📍Lyon

Engineering firm specializing in the design and development of connected devices, embedded electronic systems, and web and mobile applications.

- Developed two Flutter applications for managing connected devices.
- Utilized **Supabase** and **PostgreSQL** to store manipulation results in a database.
- Implemented a Dynamic Link Library (DLL) to retrieve information from a Bluetooth sensor.

Frontend Developer Intern, React, and Next.js

Guillaume Noël Consulting

📅 10/2022 - 03/2023 📍Lyon

IT consultant serving multiple clients. Guillaume, the manager, delegated tasks to me, including the creation of his portfolio.

- Analyzed and significantly improved the performance of a **React** application for a Web + Blockchain game.
- Developed a portfolio using **Next.js**, **Tailwind**, and Tailwind Components, featuring a contact form enabling attachment upload and submission. Deployed via Vercel.

AI Development Intern

VIAPIX Systems

📅 07/2021 - 12/2021 📍Lyon

Design and integration of road digitization solutions.

- Created a **website** for capturing photos using **HTML**, **CSS**, and **Javascript**.
- Developed a deep learning model for semantic segmentation in Python.
- Implemented an interactive map using Delphi.

SKILLS

Javascript TypeScript React

English Nextjs HTML

CSS Supabase Tailwind

Intégration Git GitHub

Python Vercel PostgreSQL

PROJECTS

✅ **Checked, a Todo app**
A fully Todo app host on vercel and built With NextJs, Tailwind, Supabase and PostgreSQL. You can take a look here Checkd

📋 **Portfolio**
I create my own portfolio, host on vercel, with NextJS, Tailwind and Typescript and I used figma to create the mock up. link

👑 **SpriteCloud**
My first SaaS, SpriteCloud, facilitates the creation of spritesheets with an organization system. Developed in Next.js with TypeScript, Tailwind, Prisma and Neon, I've integrated a payment system with Stripe. link

ACHIEVEMENTS

🏆 **Blockchain Starton 2022 Hackathon - 2nd Place**
Frontend React Developer collaborating with backend and blockchain developers.

🎖 **Blockchain 2021 Hackathon - 3rd Place**
Frontend React Developer collaborating with backend and blockchain developers.
